

PAR 20 L.E.D.

5 Watt

Available in Regular or High Brightness

RoHS
Compliant

Energy efficient and eco-friendly alternative with reliability, longevity and virtually maintenance free

PAR 20 L.E.D. are available in Cool White, Neutral White and Warm White, they only consume 5 watts of power with the equivalence of a 50 watt incandescent.

A true replacement for PAR 20 incandescent.

- UV Free
- Low Heat
- Reduced Glare
- RoHS Compliant
- No Lead or Mercury

Specifications

| | |
|-----------------------------|---------------------------------------|
| Average Wattage | 5 W |
| Approximate Equivalence | 50 Watt Incandescent |
| Input Voltage | 100~240VAC (50~60hz) |
| Color Temp (ANSI) | Cool White (6500K) |
| | Neutral White (5000K) |
| | Warm White (3000K) |
| CRI (Color Rendering Index) | Cool White (75) |
| | Neutral White (75) |
| | Warm White (80) |
| Output (Lumens) | Cool White (413) |
| | Neutral White (400) |
| | Warm White (340) |
| Lumens/Watt | Cool White (82.6) |
| | Neutral White (80) |
| | Warm White (68) |
| Beam Angle Options | Flood (60°~ 90°) |
| | Narrow (15°~30°) |
| Life Span | 50,000 Hours (Continuous Use) |
| Operating Temperature | -40°F ~ 113°F [-40°C ~ 45°C] |
| Ratings | Approved for indoor applications only |
| RoHS Compliant | Contains No Mercury or Lead |
| Warranty | 3 Years |

Note: Photometrics available upon request
